

Can you support Cardiff and Vale University Health Board to provide healthcare for all your family, now and in the future?

Have you considered leaving a Gift in your Will donation?

Every Donation Making Healthcare Better

About Cardiff and Vale University Health Board

Cardiff and Vale University Health Board is one of the largest NHS organisations in Wales. We provide health services to a population of around 472,400 people living in Cardiff and the Vale of Glamorgan. We also serve a wider population across South and Mid Wales for a range of specialties. We are a teaching hospital with close links to the university sector and together we are training the next generation of healthcare professionals.

About Cardiff & Vale Health Charity

Cardiff & Vale Health Charity is the official charity of Cardiff and Vale University Health Board. We manage charitable funds to provide equipment, research, treatment and patient care, so that your donations can support work and projects that are over and above NHS funding.

The Health Charity manages all of the generous donations that are received on behalf of the Health Board and works closely with clinical staff to ensure that all monies we receive is used to provide additional support to staff and enhanced services for our patients, where it's needed most.

Gifts In Wills (also known as a legacy donation)

Each year our income from gifts in Wills significantly supports our work and helps us make a difference to patients who use our services. Making a gift in your Will, be that a percentage of your estate, a lump sum, shares or a valuable item, is a generous way of helping make a difference to patient care.

After providing for loved ones, we would like to ask you to consider leaving the Health Charity a gift in your Will, so that together we create a lasting legacy.

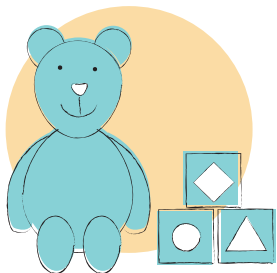

What is a legacy?

A legacy is any gift (monetary or asset) left in a person's Will; an instruction for part of your estate to be given to an individual or organisation after your death.

Why leave a Gift in my Will to Cardiff and Vale University Health Board?

The NHS is available on demand to provide healthcare services to the whole of Cardiff and the Vale of Glamorgan and receives its budget from Welsh Government.

The Health Charity provides support, by providing additional items and service improvements which are over and above what NHS funding allows. Large or small, your legacy donation can make such a difference to our patients and staff across the organisation. After you've taken care of the people closest to you, a gift in your Will could help us in so many ways. Some examples are:

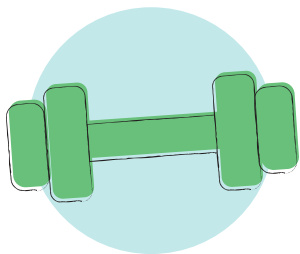

£100

could buy
toys for young
children/ neo-natal

£500

could buy
iPad for children/
teenage wards

£2,000

could pay for
gym equipment/
physios/ rehab

£10,000

could fund music
in hospitals for
older adult services

What happens to my money if I leave a Gift in my Will to Cardiff and Vale University Health Board?

We often find that when donors choose to remember us in their Will that they make a general donation, so that our clinical staff can decide where it's needed most; others make a Gift in their Will to a service of their choice that either they or their family or friends have personal experience of. Whatever your personal choice, as the Health Charity manages the charitable funds on behalf of the Health Board, we are able to listen to and support your wishes.
